After what some people are now calling 9/11 part 2 - hurricane Katrina - can we add the recent Burma or Myanmar devastating hurricane to the emerging evidence of weather manipulation? Alfred Webre from exopolitics.com is interviewed here and lists the suspicions he has. This includes the fact that Myanmar was about to announce a record rice harvest when anyone keeping an eye on current food markets will know that rice is being used as a benchmark crop for world trade. Food is likely to become a weapon as it has been in histories past.

Technologies such as this also back-up the idea of directed energy systems used on 9/11. There are many articles online covering exotic tech and environmental warfare.

Also discussed at the end of this interview are some recent discoveries that Alfred has made with regards the human-

alien liaison programs - specifically time-travel. The fact covert project structures have access to this type of system has been suggested for some time by whistle-blowers and contactees such as Jim Sparks.

On the China quake - there are some amazing images and video here which may hint at HAARP type activity in days prior to the event itself.

Ben Fulford again makes the case for advanced technologies being used to brutally sway geopolitical decision making - particularly with regards the Asian continents.

MEDIA UPDATE: War in Space - HAARP is a Space-Based Weapon of Mass Destruction, targeted against ethical Extraterrestrial visitors and innocent human populations - HAARP must be banned by Treaty!

VANCOUVER, B.C. - HAARP is an exotic weapons system that is part of the weaponization of space, using "scalar wave interferometry" - a technology first discovered by scientist Nicola Tesla in the early 1900's. Two or more longitudinal, ultra-low frequency waves are "aimed" at an intersecting point, at which time they interact in a very unique way, "tapping" into the limitless plenum of energy surrounding the planet, and weaponizing this scalar energy.

HAARP is now a principal deployed space-based weapons system, targeted against advanced ethical Extraterrestrial visitors, as warned against by Hon. Paul Hellyer, former Minister of Defence of Canada

HAARP Weather & Tectonic Warfare attacks by the evidence most probably caused the Myanmar Cyclone (May 3, 2008) and the China Earthquake (May 12, 2008).

HAARP has 3 major weapons-system components:

- Space-Based: HAARP weaponizes the Earth's Ionosphere.

Air-Based: HAARP uses ChemTrails as a frequency reflector from its Ground and Space Base, and as a Binary weapons system against the human population.

Ground-Based: HAARP ground stations energize HAARP (Alaska; Greenland; Norway; Australia)

HAARP: Reported weapons functions:

- Strategic & tactical space weapon deployed against advanced ethical Extraterrestrial visitors

SDI (Strategic Defence Initiative) Radiofrequency weapon

Environmental warfare - Weather & earthquake warfare

Space Warfare System

Missile Defense System

Scalar energy warfare against land and population targets, including cities, industrial sites, buildings, populations and individuals

ELF weapon with electromagnetic harassment and mood manipulation of target populations and individuals.

Biological & Binary Weapons against populations (with Chemtrails component)

HAARP is a Space-Based Weapon of Mass Destruction. The death toll of two recent probable Environmental Warfare attacks by HAARP is on the scale of Hiroshima. The estimated death toll of the May 3, 2008 Weather Warfare Myanmar Cyclone is 78,000 dead + 56,000 missing as of May 29, 2008. (Ben Fulford estimates 100,000 - 500,000 dead). The death toll of the May 12, 2008 Tectonic Warfare China Earthquake is 68,000 as of May 29, 2008, and expected to rise to 80,000. Official Japanese figures at the time put the Hiroshima death toll at 118661 civilians. But later estimates suggest the final toll was about 140000.
