WORLD LEADERSHIP BRIEF: *STATE OF THE WORLD*

SACHA STONE - HUMANITAD FOUNDATION - 2007

To Our International Leadership,

Who amongst you will speak out and be heard above the murderous tyranny which now owns us?

Which of you will apprehend the gangsters in control of our international organs of finance, industry and commerce - stand up to what ranges from moral apathy to sheer organized criminality run amok at the hub of our institutions of judiciary, correction, medicine, education, policing, intelligence and military?

Who will defend us against the closing game as the 'globalization' leviathan rolls out before us like a carpet of doom. Usurping the sovereignty of nations - bleeding our cultural and indigenous hearts - trampling reason and conscience. It lurches forward disemboweling what fragile resources remain in our developing nations, penalizing the poor, the good and the simple whilst rewarding the ghoulis financial and political appetites which serve it. We, the common herd - across all nations of the world - are being culled by its machinations - yet you dare to allow it to go unchallenged. Worse - you invite it into our governments, into our lives and into our homes.

The 'illuminated' nest of vipers who drive this game are now so certain of their global franchise that they operate in broad daylight. They are known to us by name and rank. You might recognize some as friends, colleagues and patrons. Yet who will challenge them - If not you - our international leadership?

It is rational to assume that many of you have become co-opted and are led by this cabal of racketeers and in so doing are complicit in herding humanity toward the precipice. These are serious allegations and serious times - but not as serious as the issue at hand - or the leaden weight which prevails on your consciences as leaders of our age and determiners of our fate.

We should glance through the scrap-book of recent history leading to the status-quo in an effort to plot the DNA of our descent into madness - as both reminder and rejoinder. You are invited here to consider the facts as they are - in the certain knowledge that this report will bear little or no resemblance to those briefings put before you by your expert advisors, your intelligence staff and your civil servants.

Sacha Stone - Humanitad Foundation - 2007

Over the past short century a culture of paranoia, control and suppression has emerged as the cornerstone of our international template of governance and administration. Not freedom, fellowship, creative-expression and prosperity - but paranoia, control, suppression and their overlord fear. It is a controlling, patriarchal, aggressive and uncompromising pathology and it is now entering its finest hour. It is therefore a very dangerous time indeed.

This culture was allowed to emerge in the modern arena because its dark seed was not challenged at the time of inception. It was not challenged at the time of inception because it was covert and by the time it became known it was difficult to apprehend. Beginning with the formation of the extant banking paradigm (viz: Bank of England in 1694) the dark seed emerged as an egregious brainchild of a few wealthy men who on one fine day in 1773 conspired to extend an empire of control across the globe by consolidating their wealth into a unified fund for the bankrolling of wars. Since that time - we have emerged as a 'civilization' whose systemic leadership has been best described by that tired homily: 'All it takes for wickedness to prevail - is for enough good men to do nothing'.

Always certain to fund both sides of any conflict, this new parlor game of Death = Profit ushered in a new era of blanket taxation, debt and the coercion of sovereignty. Coupled with a quasi-mystical driven imperative which, amongst other notions continues to insist that the end always justifies the means. Whatever result and whichever side prevailed - the 'death-bankers' retrieved their investment plus interest, spoils of war and a stranglehold on the nascent economies in all territories as they emerged (today they get to position the odd military base as a bonus). Resultantly some 97% of nations on earth have 'imposed' economies which route back to the same international banks and bankers as begat the maniacal scheme. (Interestingly enough - and not coincidentally - those few nations which still remain outside the reach of this infiltration include Iran, Syria, Sudan and North Korea. The most recent of these 'rogue' nations to fall was Iraq).

In 1913 our small band of 'internationalists' connived their way into forming that dubious engine of global economy: the Federal Reserve. A privately owned cash-cow positioning its bastard child of a 'unit' as the international standard against which all economies and currencies are propped, it does so without any of this monopoly money being backed by anything other than 'debt'. This is a polite word for the wholesale enslavement of men, women and children of our planet. The sum total of all income tax in the USA simply pays the interest on money 'owed' to these individuals. Ergo the leading nation in our 'free world' is entirely indebted to and effectively owned by this shadowy syndicate.

2007 - and our wealth of nations is subject to the control of the same families, their sentinels and cronies. They are a pedigree who have spent a century or two in exalted wealth, privilege and immunity to the usual lot of mankind. Such distance from the trivia of reality has apparently created a breed who are pathologically unable to empathize with the human condition. They are visible despite labyrinthine webs of off-shore companies, trusts, NGO's and non-profits - organisations which, by design, infest the corridors of our multilateral associations, congressional halls and parliaments. History unfolds as they succeed in leveraging their puppets onto the thrones of power, plotting and funding assassinations, coups, wars and revolutions. Influencing the rise and fall of markets, they engineer and profit vastly in the economic crashes and depressions which ensue. Houses, farms, companies, banks, cities and nations are bankrupted and then bought up - for cents to the dollar.

The machinery and mandates of our governments are themselves procured and defiled to this end. Such criminality is awful to comprehend - but how it has burgeoned into the status quo is easy to grasp. By illustration: the largest man-made vessel is a supertanker - almost half a million tonnes in weight, a quarter of a mile long and the width of a football field. Yet this vessel is steered by a wheel with the circumference of a grapefruit. So it is with the geometry of the pyramidal power structure in our world - a handful of high-born men, lacking in conscience and following the logic of greed and power, assume their positions whilst the proletariat are kept busy surviving.

Thus came into being the trajectory upon which our modern reality-tunnel is founded. The culture of profiteering and mis-rule it has wrought upon the world are the root of our modern ills. It continues unabated - fueled by the terminal ignorance of billions of souls too poor, too hungry or too busy surviving to pay attention to this silent predator - which as sure as the sun rises and sets - will soon own them, their dependents and the very roof over their heads.

So while the worker ant is kept catatonic by shoddy entertainments and the ping-pong game of party-politics (an illusion of democratic choice and power to the people) the same devils are at work. Raiding coffers, draining pension schemes, manipulating markets, laundering the public purse and by all accounts preparing to burn the house down in the very near future. With a predilection for building up arsenals of nuclear and other weaponry sufficient to toast our planet like a marshmallow there is an insurance policy which nestles between the acme of this syndrome and any accountability. It is called the National Security & Homeland Security Presidential Directive. It was rubber-stamped on the 9th of May in the year 2007 whilst people of the world slept in their beds. It is - in effect and by design - the doomsday button.

If and when it is enacted by it's creator (George W. Bush) it will empower him to suspend elections and dismiss congress for any reason and for any length of time he determines. It empowers him to take total control of government and its military and policing apparatus via martial law. The stage is set.

In having handed over such an unprecedented mandate - perhaps it would be pertinent to now consider:

This is the man and administration who prevail:

- despite catastrophic failure of their trillion dollar NORAD defense system on September 11th 2001.
- despite catastrophic failure to capture family friend and ex-business partner Osama - who allegedly heads up a posse called 'Al-Qaeda' who have a propensity for blowing-up Grandmothers and stir-frying babies. Please note that the only 'Al-Qaeda cell' ever found to date turned out to be an Israeli secret service front.
- despite the on-going catastrophic failure of their quadrillion dollar budgeted FEMA (Federal Emergency Management Agency) to handle the aftermath of the New Orleans disaster.
- despite catastrophic failure of their 'intelligence' which led to NOT unearthing weapons of mass destruction. Nearly a million souls dead. Tens of millions of lives ruined. An erstwhile sovereign nation lies in tatters and at civil war. Four 'super military bases' emerge in the Babylonian desert (the multi-billion dollar contracts outsourced to family friends).
- whose evidenced military and policing procedures include: mutilation, drowning, and murder of suspects; imprisonment of the same in concentration camps whilst hooded, shackled and manacled in ludicrous orange jump-suits - without recourse to legal representation or trial. To any rational observer this is a protocol of fear, sadism and bloodlust by design and remit from on high - not merely the escapades of a few rotten apples.
- with an avowed intent to weaponize space as though littering our planet with 5 trillion dollars-worth of nuclear weapons already is insufficient to satiate a bestial appetite for death machinery.
- This is a Presidency which has just signed Executive Order - EO 13438 which permits its henchmen to confiscate the property and interests of certain defined bad people without giving notice to said bad people. Bad people can and will be defined as anyone he chooses and will

invariably include individuals like the author of this letter. (*Her Majesty's government of the United Kingdom enforces a similar protocol against its own citizens and no doubt this blueprint for effective 'governance' will soon be adopted around the world*).

- This is an administration which grooms and outsources military activity to private mercenary contractors, giving such dark-hearted enterprises 'shoot-to-kill' authorization. These Blackwater "stability operations" mercenaries operate on the streets of the United States every bit as much as they do internationally.

And this is the renegade mob whose creative ideas, templates and procedures are being emulated throughout the world? By you - our international leaders. Why is this so? Where are your voices - and why are they not enjoined in tumult and rage against this litany of idiocy?

How many of you and your own intelligence monitoring agencies have enquired into the mobilisation of hundreds of (FEMA) concentration camps in the United States today - the largest one of which can hold two million souls (Fairbanks, Alaska). How many of you have actually read the catalogue of Federal Emergency Executive Orders - the ultimate 'security' protocols at the heart of our free world? They are so ghastly and shameless they would make Pol Pot blush. Do you really believe them to be there in the event of an exodus of illegal immigrants or the greatest myth of all: the war on drugs? Are they not proof of a syndrome of gangster government being taken to a logical conclusion - in readiness for the wholesale breakdown of civil order which will follow first-world economic collapse? How many of you are privy to the machinations of the collapse? Indeed, how many of you are privy to the true origin of the drug-culture in the Western world? How many of you have looked closely enough to determine where and how this culture arose - and the identities of the real agencies which articulate the farming, distribution and profiteering of this ghastly enterprise? How many agencies within your own nations are complicit in this mother of all cartels? I myself have been educated by some of you about these true facts-of life behind closed doorsand off the record. Always, off the record.

Which of you will reclaim our humanity from this unspeakable paradigm - this dying of the light?

So the devilment continues apace - moreso than ever before. Any enquirer going beyond and behind the veils of deception littering our schoolbooks and 'conventional wisdom' learns quickly enough the appalling truths which emerge like emerald ghosts from this bottomless ocean of lies, lies and lies. It should come as no surprise then to learn that our cabal and their handsomely salaried troglodytes continue to invest enormous sums into the systemic infiltration of schools, universities, military academies and libraries in order to rewrite history and nurture vast and resounding untruths. Their self perpetuating stratagems engineer in their wake further genocide, famine, disease and diasporas. Just as their ilk drew straight and unearthly lines through the atlas via the Napoleonic Wars, the wars of Empire and via the contrivances of WWI and WWII, so they continue carving straight lines through what remains of the human-rights, civil liberties and sovereign underpinning of peoples and nations today.

Again - we are not talking about some vague shadowy elite. These Weishaupt-Hegelian dialecticians (a.k.a. pathological control freaks) are known to us - both the retired and the incumbent - by name, portfolio and rank. Which of you will stand against their game? Who amongst you will return the envelopes unopened - inviting you to the Trilateral, CFR and G-8 pow-wows, the Bohemian Grove high jinx, Bilderberger omerta-fests, Davos profit-orgies and other insidious boys-clubs which act as touchstone for the corruption and psychopathy endemic within your echelons? Which of you will rewrite the rule-book in your own nations in accordance with the hopes and dreams of your people? Which of you will enact your mandates?

Does reason not demand that we ask why it is that 2007 candidate for U.S. congress Lt. Col. Bob Bowman (father of the Star Wars Missile Defense Program under Reagan's administration) along with former U.S. Attorney General Ramsay Clark are calling for impeachment of the U.S. President. This is

in regard to the swelling movement seeking to expose elements within the U.S. administration of complicity in the horror of 9/11? Why Presidential runners Congressmen Dennis Kucinich and Ron Paul in the U.S. Senate have raised serious concerns on this same subject? Why it is that the former German Defense Minister & head of German Secret Service Andreas von Bulow is speaking out on this matter publicly. You might study a little of what is now evidenced forensically, and on film and paper-trail through the tireless efforts of Scholars for 9/11 Truth & Justice, Pilots for 9/11 Truth and countless other media-marginalised grassroots movements representing hundreds of millions of supporters. As a fleeting courtesy to the notion of democracy - you might ask yourselves why as of the latest New York Times/ CBS News poll over 84% of Americans believe there is a cover-up and why this figure rises to 89% in the latest CNN poll. Are these facts not worthy of your very serious attention?

Will any of you speak out on this matter of dire global consequence - in the sure knowledge that you have the people of the world rallying behind you?

In the year 2007 there are over forty levels higher than TOP SECRET in the core 'military-industrial complex' - one presumes that even more apply below ground. Do your own government agencies emulate this silly, silly game? The compartmentalization of 'intel' and 'R&D' which issue forth prevent any of the hundreds of thousands of personnel working within the complex from having an overview. Therefore only a handful of men appear to have access to the most critical 'intelligence' available to mankind. This includes a vast and compelling catalogue of non-human and off-worldly contact and interaction as well as a long standing culture of highly advanced technologies and capabilities. Do not take my word for it.

Under the aegis of Dr Steven Greer's *Disclosure Project* - upward of four hundred military and scientific figures including senior FAA officials, astronauts, pilots, agency directors and generals have stepped forward in an effort to lift the lid on this 'truth embargo' - and yet the mainstream media will not permit a ray of this to enlighten our world. Among the torchbearers of this movement for disclosure are Paul Hellyer the former Canadian Defense Minister. Does sheer rationale' not insist that we investigate the word of such figures? Or are we to remain cowed to the cancerous notion that Daddy knows best - and if such things were in the realm of the 'known' - he would have told us?

How many of you - our international leadership - are complicit in this cover-up? This crime of withholding - which patronizes and manipulates our common reality - stagnates our great journey of evolution.

These sworn testimonials are now on record - on film - freely available to any who care enough to glance. This is not a sci-fi movie, nor is it an orgy of conspiracy theorists - it is a very serious matter and one which will face all of us in the near future. The gallant whistle-blowers and campaigners for disclosure know at first hand the quality of hearts and minds that control the deadly technologies emerging from this paradigm of secrecy, stealth and subterfuge - and they deem such individuals to be a dire threat to the security of humankind and our planet. We need look no further than the banal level of intelligence in the swaggering and monosyllabic leadership of our 'free world' to appreciate that these concerns may be well founded. We are a world in crisis and we are entering the critical phase.

And what of those who actually control the heart of this nefarious complex, daring to position themselves as 'owners' of all the secrets therein. Will any of you endeavor to shed light on their legacy of 'black-op's' or 'covert operations' - funded by 'black-budgets' which issue from a trillion dollar confidence trick perpetrated against unwitting citizens. The inexhaustible cycle of 'secrets' and 'intel' which protects and mystifies itself has been paid for by stealth-taxation. Generations of good folk suckered into the misery of indebtedness and the tyranny of inflation - forced to cough-up protection money masquerading as taxes, extracted by fear, baton and judiciary all working in perfect accord. All this chicanery and fluff in the name of 'national security'.

National security and patriotism have finally conjoined as a mindless club with which to beat the brains out of any dissent, voice of reason and peaceful protest. The words: terror, terrorist and terrorism - are terms perfectly illustrated now in the mind of all freedom loving citizens. The bogeyman is no longer the mad mullah or the wild-eyed zealot but is instead the twinkling faces of our own grey-suited leaders - the character and method of our own governments at home.

Which of you amongst our international leadership will speak out - act out - against this Orwellian nightmare - this black, black opera which unfurls ahead of us and demands that we all sing in full voice and march in file to its sinister tempo.

Who will speak out against the same clutch of men who continue to dragoon our international organs of governance, education and commerce across the globe into framing policy, output and delivery which suits their 'business-plan'. As their more innocuous technologies are drip-fed beyond the military industrial complex to mesmerize the global market-place. A small wonder of modern science here - an algorithm or two over there - and lo and behold! the proletariat are bewitched by 3-D immersion, micro-chips, eugenics, cloning, nano-tech and the like. Forced to remain abreast of this game of catch-up - its baubles reflect in our homes and work-places, our modes of travel and communication. And we grow ever the poorer for them. Destitute in spirit - devoid of morality and purpose.

And in this confluence of mass hypnosis and myopia we fall prey to the oldest and deadliest notion of all - the idea that we are being looked after by minds and hearts greater and deeper than our own, by brains better informed. We imagine ourselves cocooned by systems and measures devised with our greater interests at heart. Paradoxically herein lies the kernel of beauty and hope within our humanity - that we are so very trusting - so innocent in our assumptions. But sleepwalking into this reality tunnel we plod further into the dastardly grip of that same syndrome which only rewards those beings whose appetites are bigger than their capacity to love or be loved. Watchful as ever, they remain aloof and entirely in control. Finger on the trigger.

Who amongst you - our world leaders - will reclaim the eyes and the ears of the world. Which of you will challenge and reverse the trend of mainstream media as it visibly mutates into a weapon itself. A weapon wielded against the good people of the world as it defends treacherous politics and grim profit-margins? A weapon wielded against veracity, knowledge and expansion of the zeitgeist. A weapon which bludgeons the inquisitive and analytical mind - the questioning voice. As for the owners of these, the eyes and ears of our planet, we know them and the ivory towers they inhabit. Why are they not put in check, one by one, in your nation-states? Turn back the eyes and ears of your people to your people! so that we can begin to see and hear truthfulness emerge as the new paradigm. Is this not what 'leadership' demands? That the shepherd warn the flock to the approach of wolves, from the fog and from the precipice? Not from truth, from reality or from ourselves!

Which of you will speak out against the steel curtain of suppression and criminal skullduggery surrounding crucial technological, scientific and medical advancements extant in our world today? Who amongst you will offer sanctuary to the brave doctors, academics, scientists and engineers who continue to discover and invent new methods, energy systems, technologies and cures outside the military industrial complex? Discoveries inspired to alleviate the suffering of our people and our planet, inspired to propel us forward in our great journey of creativity, expression and enterprise. This - despite the suppression of study and investigation, the curtailment of grants, resources and recognition. This despite the confiscations, the murders, the ruinations and threats which litter this sorry cul-de-sac in our current evolution. Humanitad would be happy to introduce you and your government experts to some of these doctors, scientists and engineers.

Organizations like mine have for years been receiving midnight telephone calls, clandestine meetings and coded communications from such talented souls who live in fear of their lives. Organizations like mine

have for years tried to facilitate safe-passage for such folks to the embrace of sympathetic havens. Individuals like myself are frequently warned of the perils of truth-telling and are urged to couch our language in a more digestible way. We all have our little intrigues of guns-to-the-head, wire-tapping and tales of goons approaching us with cryptic warnings. Why does this nonsense still occur in the twenty first century? Who permits this culture of repression, oppression and suppression - if not you - our international leadership?

Who amongst you will take the lead in halting global police-state authoritarianism and instead begin to police yourselves?

Which of you will stop permitting the poisoning of our populations by mainstream pharmaceutical interests and their 'regulatory' bodies whose platforms are premised on the perpetuation of disease and slow-death. Whose activities include reflex outlawing of common cures, natural remedies and life enhancing foods. Who render such services to humanity as the introduction of: Aspartame/Nutrasweet (contained in 99% of all suger-free products worldwide) - a known toxin that blinds, drops intelligence, eradicates memory, grows brain tumors and cancers, causes fatigue, depression, ADD, panic, rage, paranoia, diabetes, seizures, suicide and death; Vioxx, known to have slaughtered some 50 000 people by the admission of its own manufacturer and yet is back on our shelves; Sodium Nitrate and other food additives known to be fatal toxins. The list really does go on and on.

You are urged - implored - not to look to the European Food Safety Authority, the American Medical Association or the Food & Drug Administration for clarity on these matters - and I will tell you why. They appear to do little more than click its heels to big-pharma profiteers by propagandizing the big scares like Avian-flu whilst steadily contributing to population control via obscene vaccination programs which ensure the swift delivery of deadly pathogens into the bloodstream of our children guaranteed to cripple the auto-immune system. The FDA is currently attempting to regulate massage-oil, herbal tea and vegetable juice as 'drug products'. In which case - if we are found 'administering' any of these items without a license we can be arrested and imprisoned. Again....slowly.... if the FDA prevails it will be an imprisonable offence to drink green tea in your own home or to serve a glass of vegetable juice to your neighbor. This is the agency that wishes to label irradiated food as 'pasteurized'. It is the international standard of food and drug wisdom - and it functions with the sensibility of an axe-murderer. It is also an agency joined at the hip to an administration which will go down in the annals of history as having abolished Habeus Corpus. Uncompromising machines which brazenly act against humanity, they are a perfect model and logical result of the complicity of commercial greed being married to unconscious governance, covert agendas and special interests which appear to have one common goal - decimation of the worlds population.

Which of you will look closely enough to discern the truth of these things - and then to make them known beyond and behind the steel curtain which now separates us from our own humanity - the ultimate act of division and conquest?

We are beyond the domain of malaise. We have entered the gates of macro psycho-social, cultural and economic meltdown. We are in the grip of a fascist tyranny best described by its own statute: the New World Order, and we are on the brink of free-fall into a chaos which history will look back on as the necessary and proper outcome of a civilisation whose actions are bereft of consciousness. The real travesty is that the calamity we face is one which is largely engineered and is the desired outcome of a few dark souls in our midst. We are being bullied toward a scenario which by all accounts intends the wholesale triage of humankind - a precipitation that will make the worst genocide in our history look like a tea-party.

Who among you will become true leaders, entrusted as you are with the great task of guiding the destinies of peoples and nations. You are raised above our pedestrian line of vision, precisely so that you can see the horizon stretched out ahead and in that seeing become vigilant. Beyond the hum and the buzz of power, control and adulation, endeavor to recall your own nakedness, your impoverishment and the trial of your own separation - for this is where all of us are ultimately united. And know that we empower you with our sovereign strength, our collective voice and our dreams and aspirations. We

empower you thus - so that you are best placed to represent our hearts to the greater heart of humanity in this vast and beautiful world.

The atom-seed of humanity is the most vital living force on Earth - for the simple reason that Earth and 'it' are one and the same force. It is a conscious power - ancient and sublime. It is possessed of an intelligence and instinct for survival that lies beyond and behind any force which threatens its fabric. It harbours *consciousness* - which cannot be factored into any scheme which seeks to destroy it.

As our little planet emerges from a fitful sleep - the great dance of Kali is upon us - and it bodes well for the meek.

May your G-ds bless each one of you in measure.

Interview with the New York Times

"Stop throwing the Constitution in my face.....It's just a goddamned piece of paper!"

President George W. Bush

"Needless to say, the President is correct. Whatever it was he said."

fmr. U.S. Defense Secretary Donald Rumsfeld

"The high office of President has been used to foment a plot to destroy the Americans' freedom, and before I leave office I must inform the citizens of this plight."

President John F. Kennedy

To a Columbian University audience on Nov. 13, 1963 - ten days prior to his assassination

"You are a den of vipers! I intend to rout you out, and by the Eternal God I will rout you out. If the people only understood the rank injustice of our money and banking system, there would be a revolution before morning."

President Andrew Jackson

U.S. President 1829-1837

"Since I entered politics, I have chiefly had men's views confided to me privately. Some of the biggest men in the U.S., in the field of commerce and manufacturing, are afraid of somebody, are afraid of something. They know that there is a power somewhere so organized, so subtle, so watchful, so interlocked, so complete, so pervasive, that they had better not speak above their breath when they speak in condemnation of it."

.....and in 1916 shortly after signing the Federal Reserve Act:

"I am a most unhappy man. I have unwittingly ruined my country. A great industrial nation is controlled by its system of credit. Our system of credit is concentrated. The growth of the nation, therefore, and all our activities are in the hands of a few men. We have come to be one of the worst ruled, one of the most completely controlled and dominated governments in the civilized world. No longer a government by free opinion, no longer a government by conviction and the vote of the majority, but a government by the opinion and duress of a small group of dominant men."

President Woodrow Wilson in 1913

U.S. President

"From the days of Spartacus-Weishaupt to those of Karl Marx, to those of Trotsky, Bela Kun, Rosa Luxembourg, and Emma Goldman, this world wide conspiracy for the overthrow of civilization and for the reconstitution of society on the basis of arrested development, of envious malevolence and impossible equality, has been steadily growing. It played a definitely recognizable role in the tragedy of the French Revolution. It has been the mainspring of every subversive movement during the nineteenth century, and now at last this band of extraordinary personalities from the underworld of the great cities of Europe and America have gripped the Russian people by the hair of their heads, and have become practically the undisputed masters of that enormous empire."

Winston Churchill in 1920

British Prime Minister

"We shall have world government whether or not you like it - by conquest or consent."

James Warburg

International Financier and CFR Member to a Senate Foreign Subcommittee in 1950

"To achieve world government, it is necessary to remove from the minds of men their individualism, loyalty to family tradition, national patriotism, and religious dogmas.... The reinterpretation and eventual eradication of the concept of right and wrong which has been the basis of child training, the substitution of intelligent and rational thinking for faith in the certainties of old people, these are the belated objectives..for charting the changes in human behavior."

Brock Chisholm

Humanist of the Year and former head of World Health Organization

"Whatever the price of the Chinese Revolution, it has obviously succeeded not only in producing more efficient and dedicated administration, but also in fostering high morale and community of purpose. The social experiment in China under Chairman Mao's leadership is one of the most important and successful in human history."

(35 million people died as a result of Chairman Mao's social experiment)

"Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as 'internationalists' and of conspiring with others around the world to build a more integrated global political and economic structure - one world - if you will.

If that's the charge, I stand guilty, and I am proud of it".

...and in an address to the Trilateral Commission in 1991:

"We are grateful to The Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years.

But, the work is now much more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national autodetermination practiced in past centuries."

David Rockefeller

International Financier and founder of the Trilateral Commission

"The drive of the Rockefellers and their allies is to create a one-world government combining supercapitalism and Communism under the same tent, all under their control.... Do I mean conspiracy? Yes I do.

I am convinced there is such a plot, international in scope, generations old in planning, and incredibly evil in intent."

Congressman Larry P. McDonald

in 1976 (shortly thereafter killed in the shot down Korean Airlines 747)

"In the next century, nations as we know it will be obsolete; all states will recognize a single, global authority. National sovereignty wasn't such a great idea after all."

One world government is inevitable."

Pope John Paul II

"We are on the verge of a global transformation.
All we need is the right major crisis and the nations will accept the New World Order."
